

But no rationed  
1/2 a lb of ...  
... very much ...  
... put ...

Mr  
Nov. 9<sup>th</sup> 43

My Dear ...

Well here I am again  
I have just received your lovely gift box  
now it is full of your photos  
I shall have quite a  
looking over them, I received a  
picture of ... castle etc & your  
photo taken with another chap  
etc. I haven't heard from you  
excepting the airgraph, but one of these days I suppose  
I will get quite a few Lunnis hear quite  
often from sketch & they tell me the news the  
last they heard was the two mills were ready  
for working, just waiting for the logging gear,  
we are doing alright here they are still  
cutting a lot of timber & just cleaning up  
Sams bush ... set for ...  
They have just ... 2 1/2 h.p. engine  
with wood spindle saw all full and  
20 ft ... shafting, 4 bearings & reverse  
pulleys & belt for the lot, the engine  
is ... machine, with  
made for ... compressor, they  
from ... father ...

they are going up to get it all has a roof  
I think in the some time in the future they  
are going to build a big garage & work a  
2 1/2 horse engine in it to be in it they are  
getting a lovely lot of machinery to get you  
will have all the things all over where  
you come home I have a new half sister  
next week try to see her  
boy friend, he has always worked on the farm  
& has got sick of them so he wants to try  
sawmilling he seems a nice willing sort he  
is so, we are trying to get Len Randall, but  
they might be starting their mill again we will  
know this week. I spoke to Bill Davis in  
town the day after he got home, he was looking  
very well & told me all I wanted to know  
& that was that you were U.R. Dad spoke to  
Joe Curry in the "Standard"; Bill Samuel's posted  
the present to me he is also wrote a  
letter to say he is coming to see us soon  
he is well & happy, they say Dick & Helen  
is very well & happy, he & Bonnie are  
at school. Red & Bob shouldn't be very long  
now before you see them he was looks pretty good  
the new mill the Germans have saved the house  
they have just about finished the Germans.  
I'll come all around in Youngs & I think

for some 2 Lea, beed drove us all up to  
 Lunnay Bush, along way past the hill re g  
 visit in all re great Robert, the first  
 Dad & I we see we went up that road  
 at the top of the houses by your it  
 it be just walded help with a dult  
 2 2 2 2, the beautiful car & Bed  
 does all the time about any house  
 The man power has called her up again she  
 is to be re examined on Tuesday, it's a jolly  
 shame, she is manageress now & gets £4.20  
 a week, it's a crying shame the way the girls  
 are conscripted they are calling for farm girls  
 but the wages is pretty poor. I like to I saw  
 Les Petheridge in that form the other day,  
 Roy is still all right he now in the Bulks store  
 I hope stops there Harold his brother is in  
 the fighting now again & the yellow pencil. I  
 musn't forget the news Lindsay & Dulcie  
 are getting married in a year into m  
 2 date they are not go  
 to work to be built, but we  
 are (out) they are just going  
 to have a house is going in  
 2 we are considering the house &  
 layg of the water is best to start small  
 2 I've to go again they are eyes plating

they are so happy, Tharai is helping  
 helping to paint, I will what its date is fixed.  
 when its date is fixed, my floors are  
 very well, I was lying out  
 the morning, the bull down has not  
 arrived yet but it should not be very long now.  
 By job 'Rala' is wonderful we sell the timber  
 at \$3.00 per hundred & Foster from town buys  
 the slabs at \$2. a load he loads them &  
 there is only the saw dust wasted &  
 we have useful rare  
 Ivan miss you greatly  
 happy we hope when you come  
 hope when you come  
 shift real summer  
 but had't  
 she was living along  
 Albert I had better  
 but exhausted my  
 from us all  
 now he is  
 by.
