

Friday 12th Nov.

6 River Rd
Arundel.

My Dearest Alice,

Thank you so
much for your three lovely letters
I received this week, gosh I
was so pleased, an airmograph

on Tuesday and two on

Wednesday, I'm so glad you
are still in the pink, and

I can safely say I am still
enjoying the best of health,

except for a cold at the

present time, but hoping to
shake that off soon. I have
most certainly tried to draw
it this week. Tuesday was
Sue's birthday, so she and
I went round to the 'Eagle'

in the evening, and had a
couple of whiskies, then on
Wed was our Rand Army dance,
and to surprise you I went.

Before that we went to the
Norfolk, then to the 'Bridge'

to have a gin and Peach
Bitters, remember, then we went
to the 'Red Lion', back to
the Norfolk, and then up to
the dance, it was a jolly
fine show, a real success,

but jolly bad they polished
that floor, it was like glass,
I could hardly stand up,
and it was all due to
the drink I had had, but

any way I ^{do} enjoyed it.

I only wish you could have

been there with me, there

were several N.Y. Air Force

fellowes there, Canadians, Yanks,

Australians, in fact some of

all sorts, it started at 4pm

to 11-45, there is another

one on Dec 8th for the

N.F.S. so I expect I

shall be going, all being well

17.

It sounds as if you have
been having a grand time,
what with football, swimming
and sunbathing

Yes Albie I wish I could

be out with you

for you, it would certainly
save you a lot of trouble.

So you are back on the
old job. be careful of
those fingers - what you.

↳

It's very quiet up at Patchon
now, both mills gone, and now
the Charcoal Business have moved,
so we are all on our own.

So pleased you have heard
from home and that every-
one is OK, and that the mill
is doing fine.

Well I must say Goodnight
now, will write again next
week, remember me to Danny,
Lots of love and kisses.
x x x Even Yours Bob x x x
