8.40pm

Dear Chris

Relax - I wrote to W Parker of 14 Paisley St Levin, not the Prouse lot - though now you have me confused - I thought it was Winston who rang me, but I'm wondering now whether it mightn't have been Louis Prouse etc. Ummm

Told you, didn't I that we start work on the concreting next week. It has been deferred until 6 Jan, because of delivery problems. That's the trouble with the Christmas shut-down its very hard to get little loads of things like 2 metres of mix and $\frac{1}{2}$ a metre of sand dropped at the door to order! Don't really feel like lugging it ourselves in our buckets!

Would lunch on either 9 or 10 February be okay with you? We should be going up to my in-laws on about 8 Feb for 4 or 5 days, but let me know if those dates are convenient - we can rearrange our programme - nothing is final yet and Ken is off that week anyway.

I regret that mention of a conservatory on the side of the 'Moness' photo bears striking resemblance to a picture I have seen of the McIlvride home with glass conservatory with slanting roof tacked on to the end of a verandah. I look forward to seeing same, but I'm not holding my breath anymore. However, if its a photo of the McIlvride home which we don't have, then we would still love to have a copy taken. Will scratch around for that Levin home photo - surely you would have recognised if that's what it is. A bit of a puzzler. It wouldn't be a bad idea for me to adopt your New Year's resolution too - talk about chaos. I thought the computer age ~~was~~ meant to lessen the work load etc etc. Hummph

All the best and be seeing you. Hope Feb isn't too far away and that I have lots of positive photos to represent progress etc. Don't forget to try and earmark 3 March etc.

Wickie
